

Youth Train in Trades

The **Youth Train in Trades Program** allows high school students to take pre-apprenticeship (technical) training that provides them with **dual-credit** (up to 32 credits) for high school courses and apprenticeship or industry training programs. This is an innovative partnership between the local colleges and the North Okanagan-Shuswap School District. **Youth Train in Trades Programs are tuition-free**, however students are required to pay fees and materials. **Application process is competitive and space is limited.**

Who Attends: Students in their Grade 11 or 12 year

Facilitator: PVSS Career Coordinator, Doug Brown – 250 546-3114, ext 206

Dates: September or February (depending on selected program)
